Letter of guarantee

On July 2, 2014, the Government of Canada repealed the pre-registration requirement for construction materials, packaging materials and non-food chemicals used in food processing. The Canadian Food Inspection Agency (CFIA) no longer issues letters of acceptance for gloves, aprons, sleeves, gowns and other PPE that come in direct contact with food. To learn more: [Guidance for Food Establishments Concerning Construction Materials and Packaging Materials and Non-Food Chemicals - Canadian Food Inspection Agency \(canada.ca\)](#)

MedSec, as a private label, guarantees with this letter that the products described below are safe and fit for use in food processing to curb contamination risk. They are also medical grade gloves licensed by Health Canada.
